

Caring^{TLC} for your needs today, tomorrow and beyond

Solutions for the Adhesives, Coatings, Inks and Metal Treatment Industries

TLC Ingredients has partnered with top chemical manufacturers to help our customers improve the performance of products used for specialty industrial chemical applications. We have a broad mix of high quality chemicals for customers making:

- Adhesives, Starch-based and Pressure-Sensitive
- Specialty Coatings
- Inks & Printing Industry
- Metal Treatment & Corrosion Inhibitors

Ask us about how we can help you solve your toughest formulation challenges including more environmentally-friendly products.

Key Ingredient Categories include:

- ◆ Acids — Citric, Sulfamic, Sodium Bisulfate, Acetic, Gluconic, Glycolic
- ◆ Alkalis— Caustic Soda & Potash, Soda Ash
- ◆ Amines — DEAE, Ethanolamines, Morpholine
- ◆ Antifoams / Defoamers and Silicone Fluids
- ◆ Borates—Boric Acid, Borax
- ◆ Chelating Agents—EDTA, Sodium Gluconate
- ◆ Emulsifiers — Lecithin, Sorbitan Esters and Polysorbates
- ◆ Glycols (EG, DEG), Glycerine, Propylene Glycol (Petro– and Bio-Based) and White Oil
- ◆ Metasilicates and Sodium Silicates
- ◆ Nitrites and Nitrates
- ◆ Phenolic Resins — Durez / SBHPP
- ◆ Phosphates and Phosphoric Acid
- ◆ Phosponates (HEDP, PBTC) and Triazoles
- ◆ Preservatives and Antioxidants — BHT, Sodium Benzoate, Benzoic Acid, Sorbate
- ◆ Process Aids and Additives — Calcium Chloride, Sodium Bicarbonate, Sodium Metabisulfite, Titanium Dioxide, Urea
- ◆ Starches and Sugar
- ◆ Surfactants, Solvents and Glycol Ethers
